Sustainable Development Framework

4 Stages of SCG SD Pathway

Expand SD Practices throughout the value chain

Shift of Procurement Paradigm

Traditional Procurement

Decision on Prices

Buyer is the Influencer

Business

Green Procurement

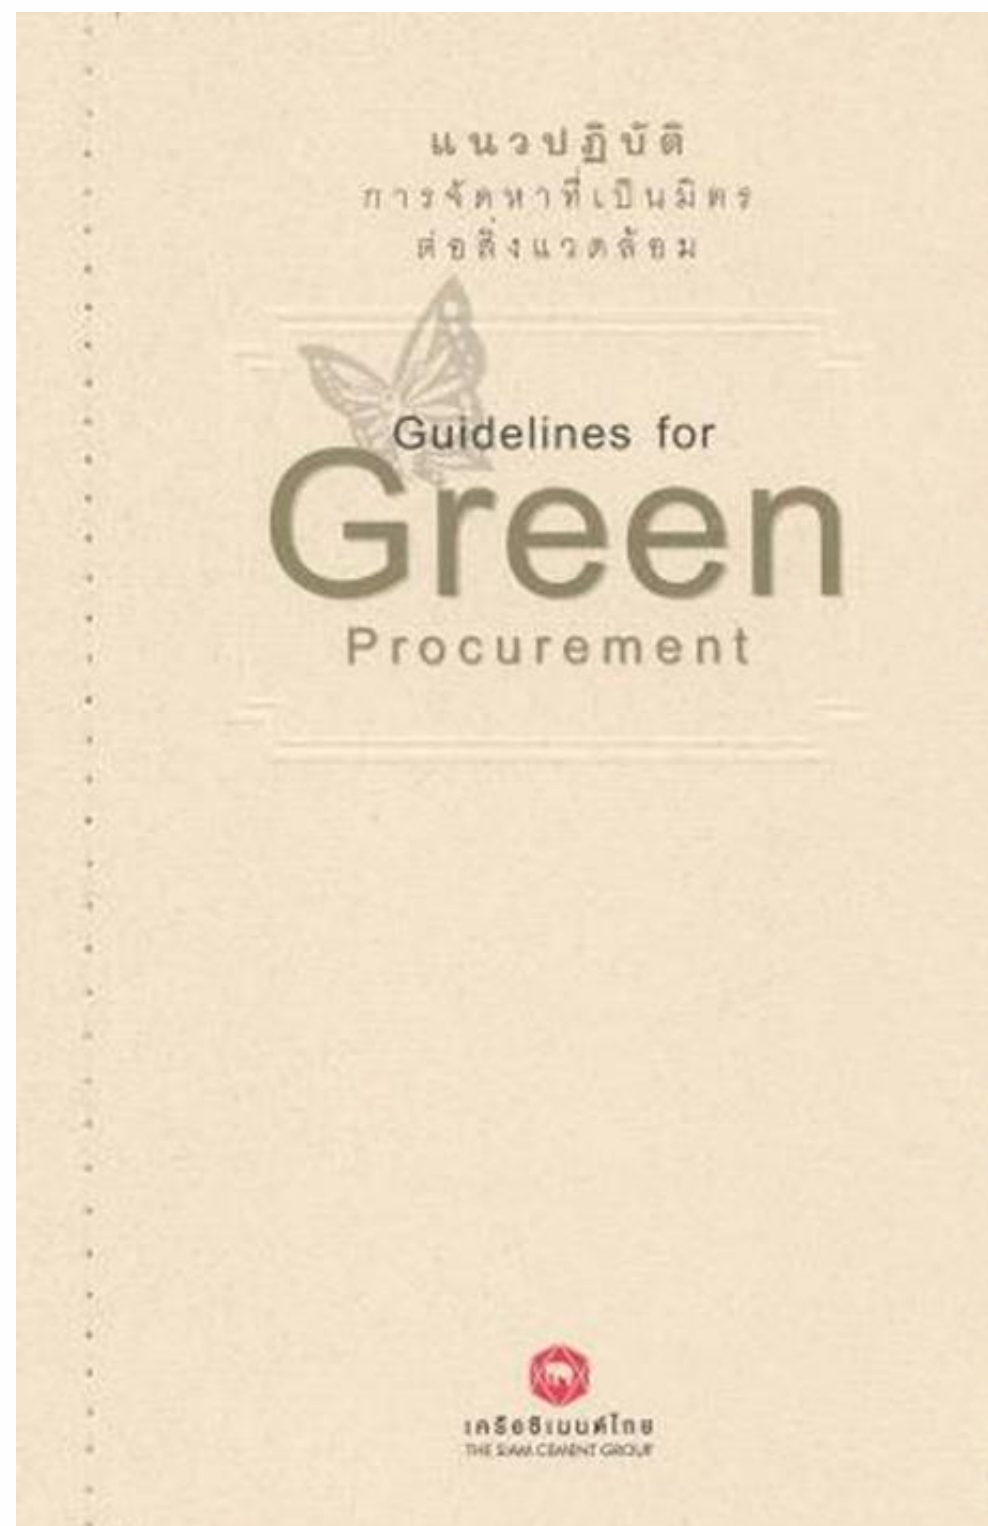

Sustainability into
Procurement Decision

Synergy Business

Collaboration & Support

SCG Green Procurement- implement since **2004**

The criteria for Green Procurement are based on two items;

1.The Environmental Impact of the Purchased Materials and Services by their “Life Cycle”,

1. Manufacturing
2. Usage

2.Environmental Management Systems,

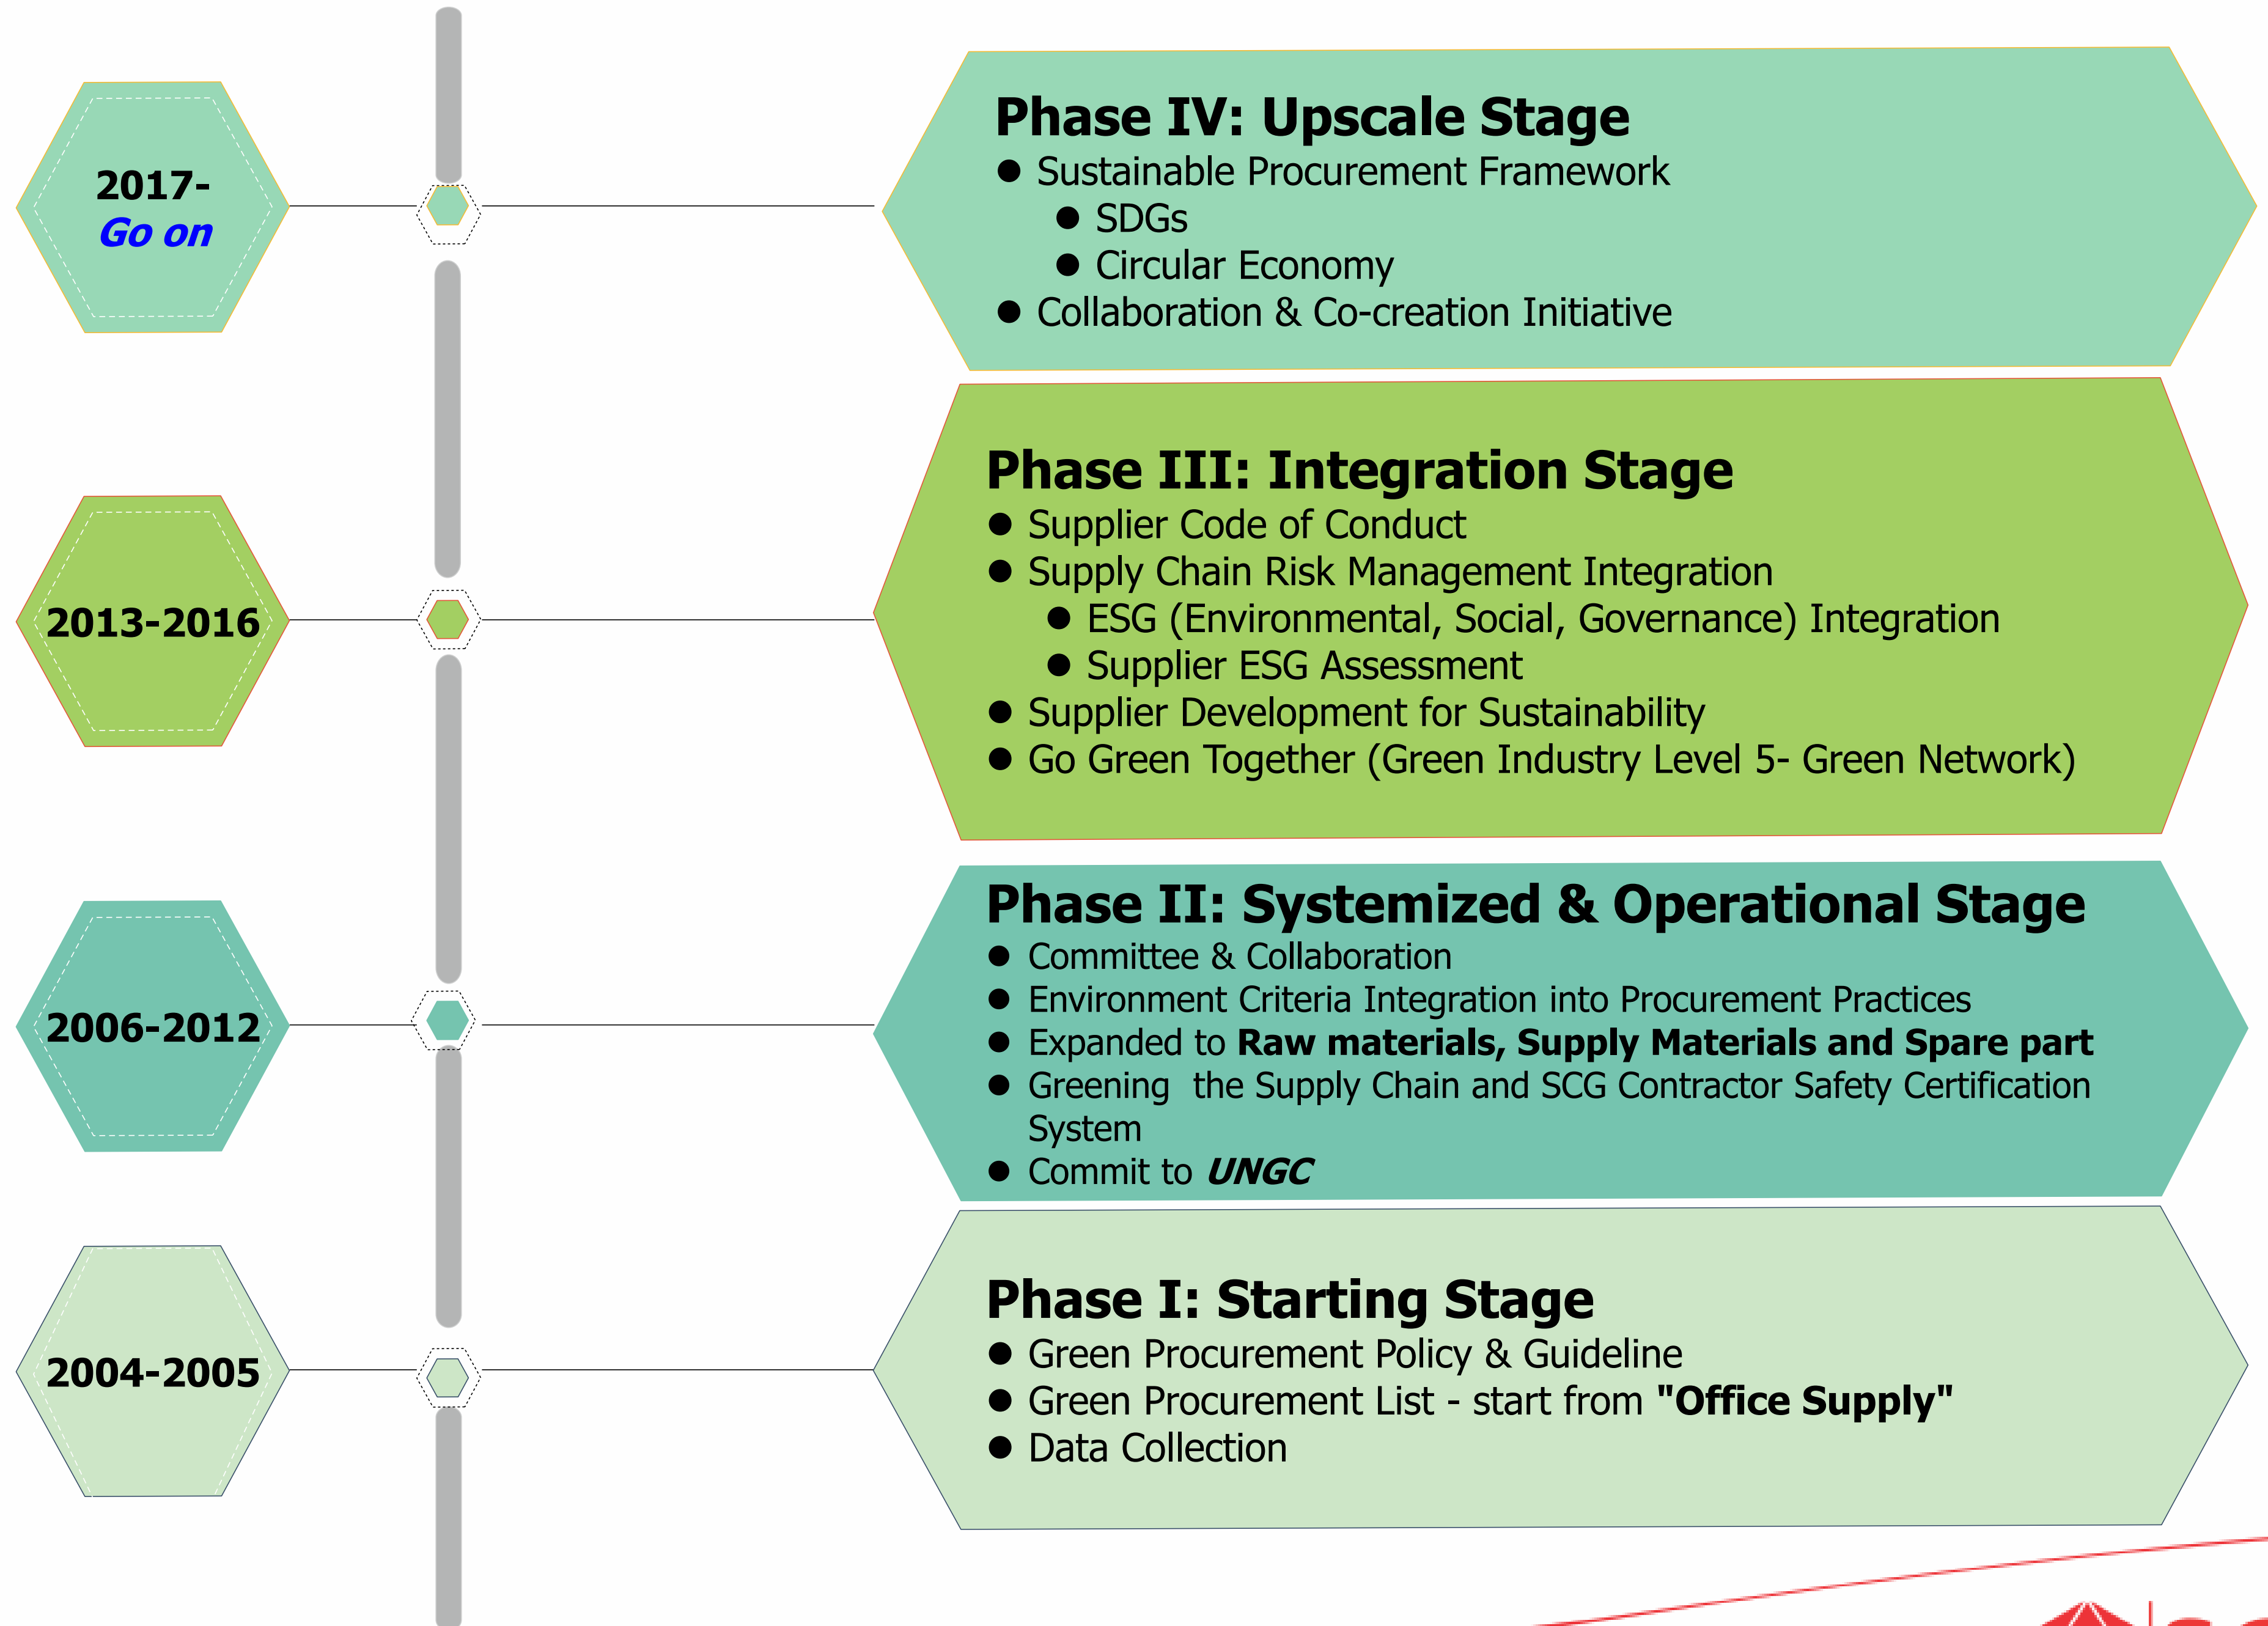

1. Implementing an international EMS
2. Being certified for green products
3. Supporting environmental conservation activities
(Energy conservation program)

Then ...In 2004, 0.6 MB from 6 green stationery products

Now .. In 2017

- Over **194** Suppliers joined the Greening Supply Chain
- **10,909** MB in purchasing volume of green products
- Over 90 MB/y in cost reduction of Suppliers
