- Hydro and Agro Informatics Institute (Public Organization)

- Thailand Greenhouse Gas Management Organization (Public Organization)
- Energy Policy and Planning Office
- Department of Alternative Energy Development and Efficiency
- Department of Agriculture
- Department of Livestock
- Royal Forest Department
- Department of Industrial Works
- Tourism Authority of Thailand

2) Carbon Label for Building Project

Carbon Label for Building Project

- Battling climate change issue in both mitigation and adaptation approaches
- Creating awareness on climate change to the public and taking action on the reduction of greenhouse gas emissions
- Carbon Label for Building is a voluntary scheme and will be certified to the building that can reduce 10% of GHG emission/functional unit comparing between year 2002 and the most recent year

Carbon Label for Building Project

- Cooperation project between TBCSD, TEI and TGO
- Project is in the initial stage. Criteria for the certification are being developed by the partner organizations.

3) Low Carbon Products Project

Low Carbon Products Project

- Aiming to reduce greenhouse gas emissions originated from product consumptions and utilizations to fulfill the commitment made with the society on “Low Carbon Society”
- Key activity is to encourage TBCSD members to purchase low carbon products manufactured by TBCSD members and partners

Low Carbon Products Project

- Several TBCSD members and partners can supply low carbon products for all TBCSD members with special prices
- Examples are Lekise T5 fluorescent lamp, Mitr Phol gold natural mineral sugar, and Yok palm olein oil.
- There will be a press conference for the project on 9 September 2009 at Challenger Hall, Impact Arena

4) Lighting up the Dark Night – Lighting up the Light for Our Society

Lighting up the Dark Night – Lighting up the Light for Our Society

- Aiming to alleviate difficulties in lacking of electricity in rural villages and to create opportunity for students to do their homework and to study during the night time
- Key activity is to donate solar-powered lanterns for to rural schools.
- Cooperation between TBCSD and Leonic Company

5) Project: Disseminating Good Practices for Sustainable Development

Project: Disseminating Good Practices for Sustainable Development

- The key activities are to gather all of good practices from TBCSD members and other organizations in Thailand and develop into a database for dissemination to the society.
- Good practices will be categorized, such as good governance, energy efficiency and GHG reduction.
- Starting in 2009 and to be completed in 2010.

6) Natural Disaster Alleviation and Prevention Project

IV. Other matter

- 1) Meeting of council members
- 2) Ryutaro Hashimoto APFED Awards and Showcase
- 3) Others

Ryutaro Hashimoto APFED Awards

- Awards for Good Practices
- Given to all environmental fields with the focus on resource and waste management facilitating actions to reduce, reuse and/or recycle resources and fostering sound material cycle, sustainable consumption and production, and circular economy
- Gold Prize: 1 case (USD 20,000)
- Silver Prize: 2 cases (USD 7,000 each)
- Incentive Prize: Up to 5 cases (USD 2,000 each)

APFED Showcase Programme

- For organization only (TBCSD members can encourage organizations that the member support to apply)
- Showcase Programme is a grant of up to US\$30,000 to each sustainable development project
- Focus areas are (1) climate change; (2) marine and coastal resources; (3) wastes and chemicals; (4) energy and air, (5) biodiversity; (6) freshwater; and (7) land management

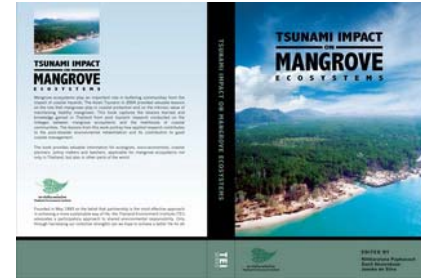

Others

Social Contribution:

- Donate “**TSUNAMI IMPACT ON MANGROVE ECOSYSTEM**” to academy library.
- Donate “**Pli Bai journal**” for students who reside in 3 southern boarder provinces
- Donate Dhamma books and glass/ ceramic utensils to temple
- Supply low carbon products for all TBCSD members with special prices (T5 fluorecence lamp)

• **Apply within 15 September 2009**

Others

Forthcoming TBCSD publications :

- TBCSD Achievement

Deadline: 15 September 2009

- Sustainable Development

Deadline: 30 September 2009

Trip:

- TBCSD Carbon-Neutral Trip to the North... to build a check dam, plant trees, reduce carbon (4- 8 Nov. 2009)

Apply within 19 October 2009
