Sustainability journey

mana

earthly paradise • ubud

is a next-generation eco hotel in Ubud, Bali, run by an award-winning NGO, Earth Company.

EARTHCOMPANY

why do we exist?

Tourists use **2,500L** of water per day while the locals use only **180L**.

Tourists generate **3.7kg** of waste per day while the locals generate only **0.7kg**.

And 50% ends up in landfill.

We want to be part of the solution, not the problem.

Be the change you want to see in the world.

what is mana?

m a n a exists to make the world a better place.

We want to exemplify a truly circular and regenerative economy where "the more profits businesses make, the better the world would become".

m a n a philosophy

Tri Hita Karana

The Balinese Worldview of 3 Harmonies

Harmony with the **gods**.

Harmony with the **nature**.

Harmony among the **people**.

mana facilities

m a n a key facilities

mana eco villas

The earth bag villas epitome of sustainable architecture made of rice bags, sand and water

mana kitchen

Organic • Ecological • Ethical • Social • Local

mana market is where the more you buy, the better the world becomes!

mana's 5 elements

It's almost impossible to find anything organic nowadays, but we try to stay as chemical-free as possible to keep you, our community, and Mother Earth healthy!

We are earthfriendly. We make sure we live in harmony with nature so we can pass on this beautiful world to our children and beyond.

We try our best to ensure that all people and animals involved in the entire value chain of the products are treated with respect - free of exploitation and abuse.

We consciously support suppliers and manufacturers who represent marginalized people such as women, rural communities, indigenous people, people with disabilities, etc.

We keep our selection of products as local as possible. Imported goods not only emit so much CO2 in their journeys but also fail to contribute to the local economy. We support the growth of local entrepreneurs, producers and businesses.

mana market products

fresh spice made by local women coffee that saves climate-affected farmers Upcycled sandals made of used tires

bags made by Kalimantan women

mana carthly paradise + ubud

mana market impacts

m a n a other facilities

yoga shala Used for yoga, workshops,

and for relaxation

permaculture garden

Organic heirloom veggies grown chemical-free and served at Mana Kitchen. Food waste composted and circulated.

kids playground

Coming soon...
